

HOWARD UNIVERSITY MASTER'S SOCIAL WORK PROGRAM ASSESSMENT OF STUDENT LEARNING OUTCOMES- AY25-26

1.1 Mastery of Core Competencies of Social Work Practice- FLAGSHIP

Students will demonstrate meeting the Council of Social Work Education core competencies:

Measures	Results	Actions
ABE II and ABE IV Internship Completion Rates (Flagship) Students will demonstrate successful completion of the Agency-Based Education (ABE) internship sequence through satisfactory completion of ABE II and ABE IV prior to graduation. Target At least 80% of students will successfully complete the Agency-Based Education (ABE) internship sequence, including ABE II and ABE IV, prior to graduation.	Summary The assessment results indicate that students in the Agency-Based Education (ABE) internship sequence exceeded the established benchmark for successful course completion. The program benchmark required that at least 80% of students successfully complete ABE II and ABE IV prior to graduation. (See Chart I) Analysis The assessment results indicate that students in the Agency-Based Education (ABE) internship sequence exceeded the established benchmark for successful course completion. The program benchmark required that at least 80% of students successfully complete ABE II and ABE IV prior to graduation. Overall course performance was also strong, with average GPAs of 3.67 in ABE II and 3.79 in ABE IV.	These measures support assessment of the nine competencies within Agency-Based Education courses and they support institutional assessment but do not yet assess the nine competencies directly. A student learning outcomes course map is being built to fill this gap. The institutional assessment reports serve as supporting evidence rather than our primary competency data.

Chart I: ABE Internship Course Completion Rate (Flagship)

1.2 Mastery of Core Competencies of Social Work Practice- ONLINE

Students will demonstrate meeting the Council of Social Work Education core competencies:

Measures	Results	Actions
ABE II and ABE IV Internship Completion Rates (Online) Students will demonstrate successful completion of the Agency-Based Education [?]ABE[?] internship sequence through satisfactory completion of ABE II and ABE IV prior to graduation. Target At least 80% of students will successfully complete the Agency-Based Education [?]ABE[?] internship sequence, including ABE II and ABE IV, prior to graduation.	Summary The assessment results indicate that students in the Agency-Based Education (ABE) internship sequence exceeded the established benchmark for successful course completion. The program benchmark required that at least 80% of students successfully complete ABE II and ABE IV prior to graduation. (See Chart II) Analysis The assessment results indicate that students in the Agency-Based Education [?]ABE[?] internship sequence exceeded the established benchmark for successful course completion. The program benchmark required that at least 80% of students successfully complete ABE II and ABE IV prior to graduation. Overall course performance was also strong, with average GPAs of 3.78 in ABE II and 3.48 in ABE IV.	These measures support assessment of the nine competencies within Agency-Based Education courses and they support institutional assessment but do not yet assess the nine competencies directly. A student learning outcomes course map is being built to fill this gap. The institutional assessment reports serve as supporting evidence rather than our primary competency data.

Chart II: ABE Internship Course Completion Rate (Flagship)

Course	Students Passed	Total Students	Completion Rate
ABE II (Spring 2025)	35	37	0.945945946
ABE IV (Spring 2026)	49	56	0.875
Course	Completion Rate	Benchmark	
ABE II (Spring 2025)	95%	80%	
ABE IV (Spring 2026)	88%	80%
